INTRODUCTION

Introduction

genially education

- *Genial.ly* is a very useful tool for **creating interactive presentations** of excellent quality, without the need for programming or design skills.

- It has become very popular in the educational field because of its **potential** and **ease of use**, with many free **templates** and the possibility of generating reusable materials.

- There are **communities of teachers** creating educational content and sharing it.

- Available on all operating systems, and content can be consumed on any device device: PC, mobile and tablet.

Introduction

What is it for?

These are some of the contents that can be created:

- Presentations, images and interactive videos

- Digital books and magazines

- Learning experiences

- Gamified activities

- Infographics

- Guides

- and much more.

Enriched Content + Design =

Introduction

Requirements:

Availability: online.

Internet connection: required.

PC installation: no.

License type: free version available.

SIGN UP

Sign up

As with all applications, the first step is to create an account.

You should enter the web address: https://genial.ly/es

At the top right there are two options:

- "**Login**" if you already have an account in this application.
- "**Sign up**" to create new accounts.

Co-funded by the European Union

Sign up

In the registration process, you can choose profile, in this case we select "Educational".

"Teacher" on the next screen.

And finally decide the environment you are interested in.

I chose "University".

VNiVERSiDAD Đ SALAMANCA

Let's learn how to use some of them. We start with **Interactive image**:

When you click on it, we start!

@girlseuproject
https://girlsproject.eu/

CREATE AN INTERACTIVE IMAGE

@girlseuproject
https://girlsproject.eu/

VNiVERSiDAD Ð SALAMANCA

Interactive Image

Genial.ly is a tool for creating images with interactivity and animation in a very simple way.

- An image with **interactivity** allows the user viewing it to access more information or other pages by clicking on a point in the image.

- **Animation** consists of making some element(s) of the image move, easily capturing the user's attention.

- Example of an interactive image about the periodic system of the chemical elements:

https://view.genial.ly/629f24e010fbb00011481f68/interactive-content-periodic-table-of-elements

@girlseuproject
https://girlsproject.eu/

By clicking on "**Interactive image**" Genial.ly gives you the possibility to watch a video, which explains how to make an interactive image. In a few minutes it gives the key hints to make a basic interactive image.
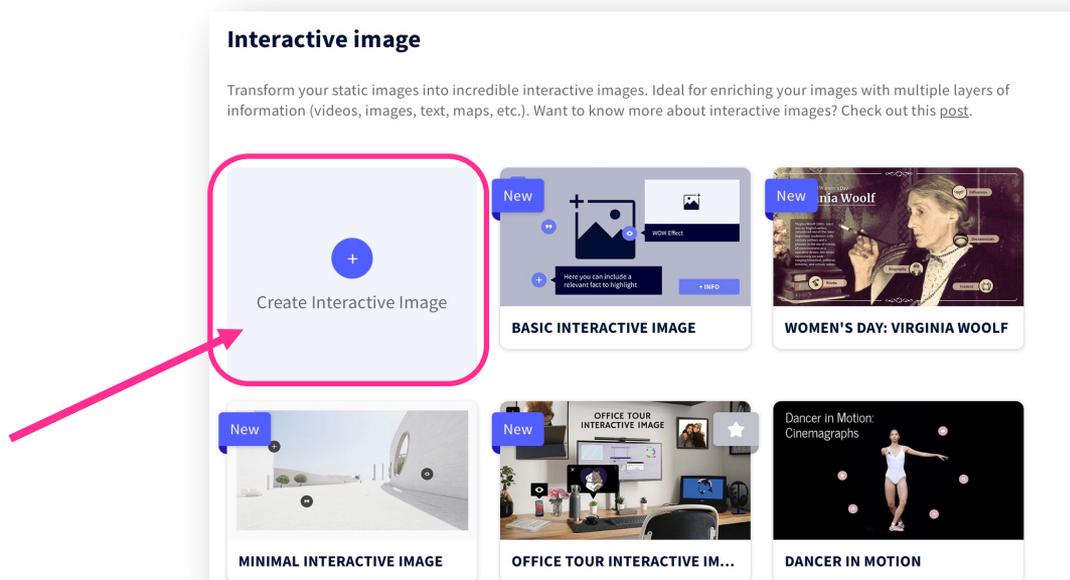

The other option is to click on "Interactive Image" and start a new project.

Create an interactive image

![GIRLS logo]

![VNiVERSiDAD Đ SALAMANCA logo]

Choose the image or photo that will be the basis of the project: from "Your computer", "Google Drive", "Dropbox" or with the "URL".

Or simply drag and drop an image into the shaded area.

Interactive image

- Your computer
- URL
- Google Drive
- Dropbox

Select an image from your device ✕

Drag your images here or click to look in your computer (5Mb max)
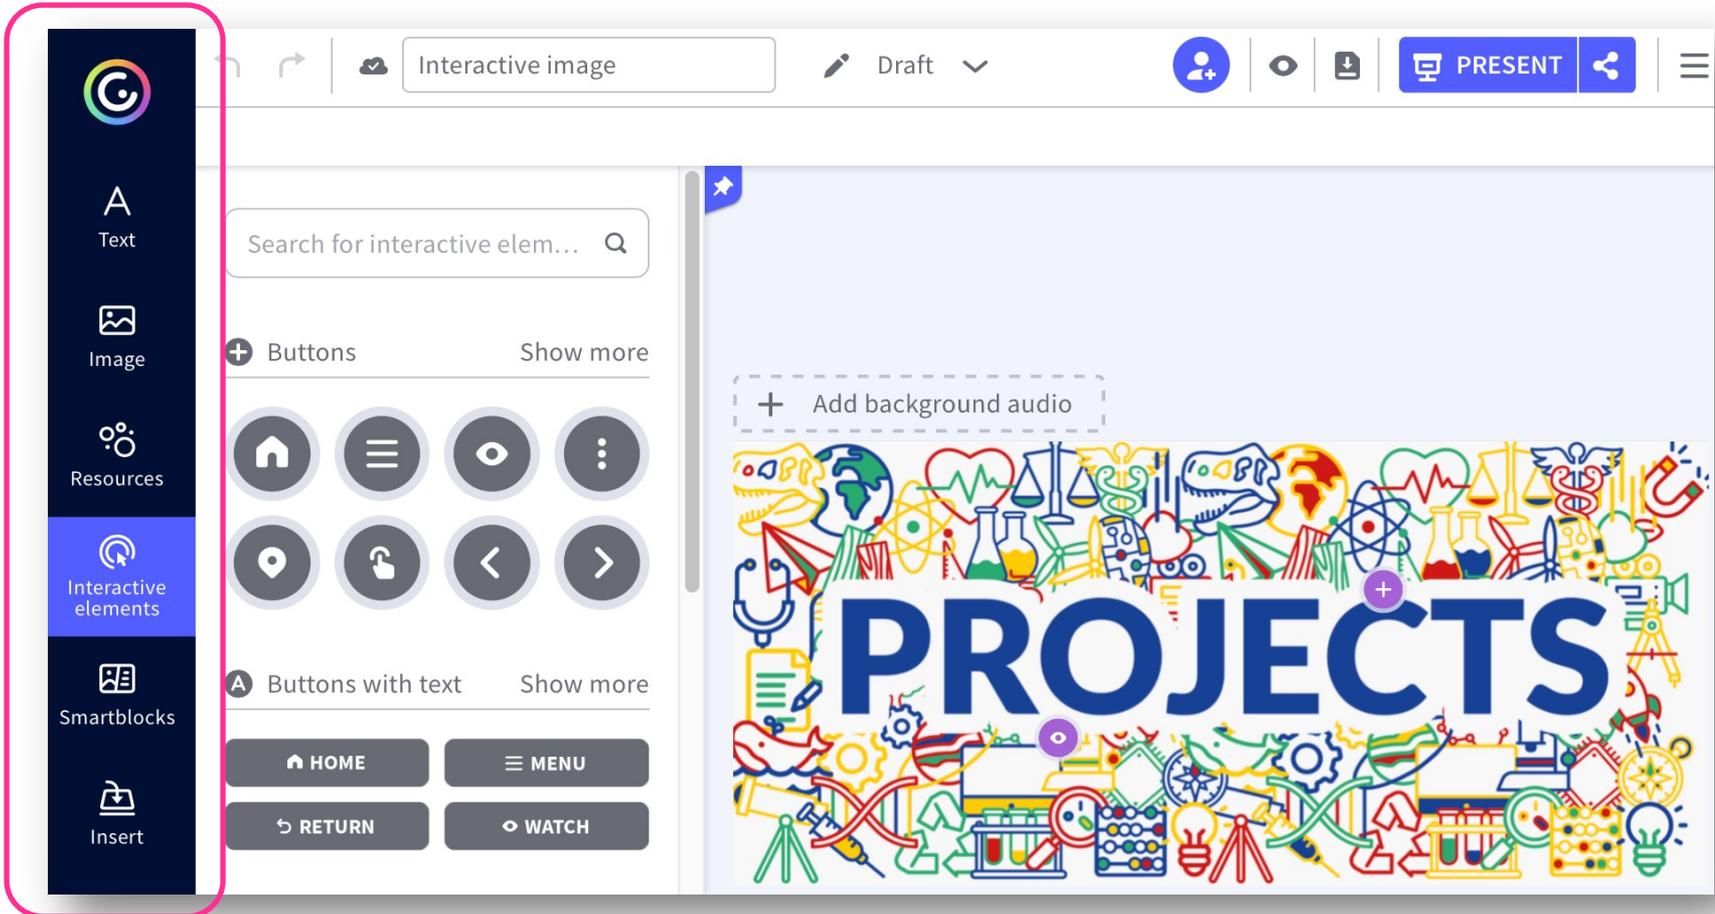

CANCEL   ACCEPT

Once you have the image in your panel, click on it and click "Accept".

The first screen allows you to edit the image with icons such as: resize, rotate, flip or replace.

Once you have adjusted the image, click "OK" to begin.

@girlseuproject
https://girlsproject.eu/

Create an interactive image

Genially Editor

Let's look at the Menu options on the left.

@girlseuproject
https://girlsproject.eu/

Create an interactive image

Genially Editor

You are already in the Genially editor. Use the menu options to edit your template.

Create an interactive image

Workspace

The central part is the canvas, the place to edit content and add new elements such as text, images, videos and graphics.

@girlseuproject
https://girlsproject.eu/

Create an interactive image
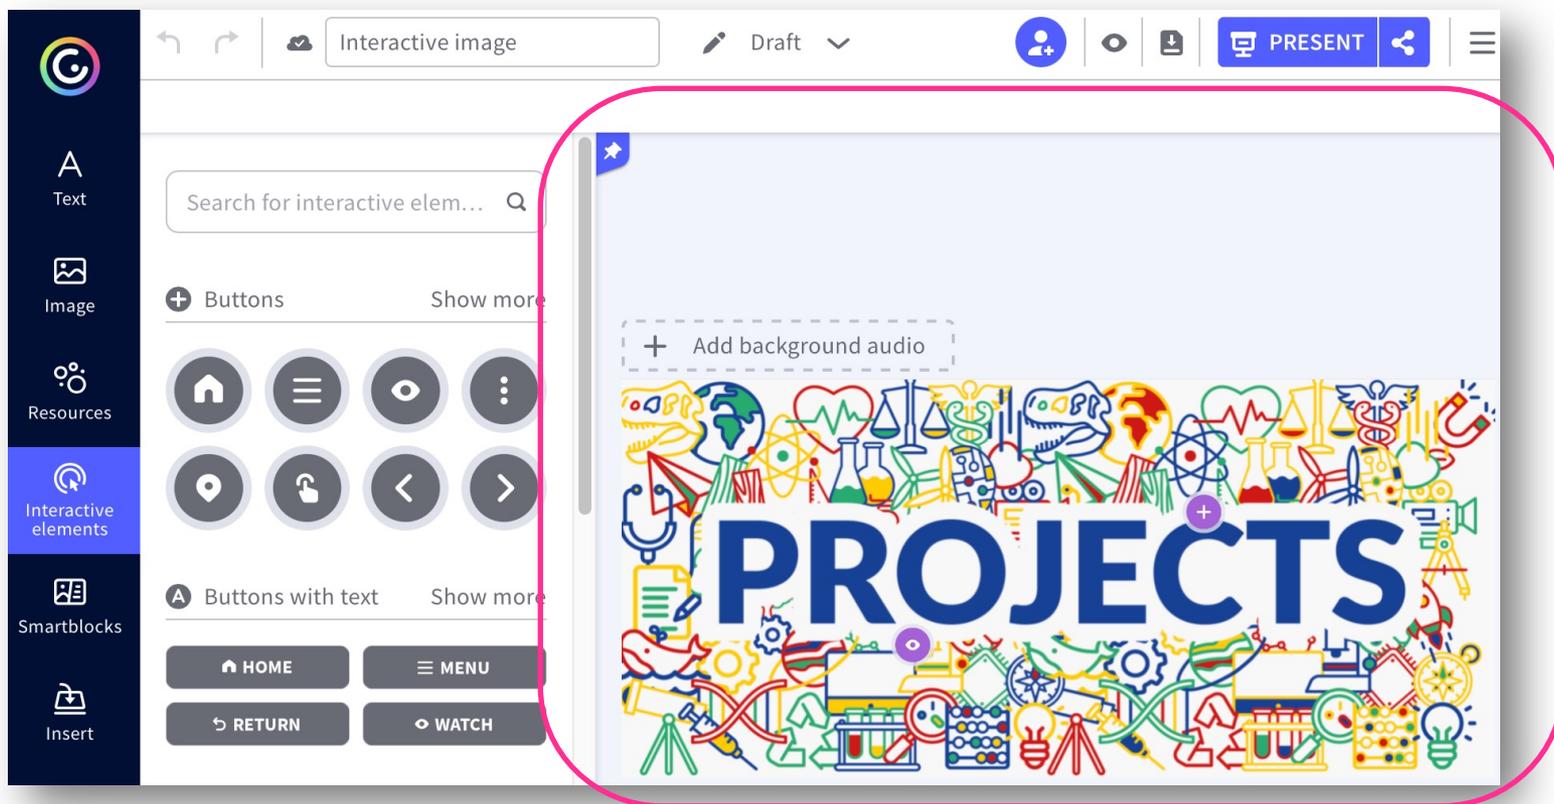

Check the final appearance

You can check the final appearance of your project by clicking on the eye icon in the upper right-hand corner.
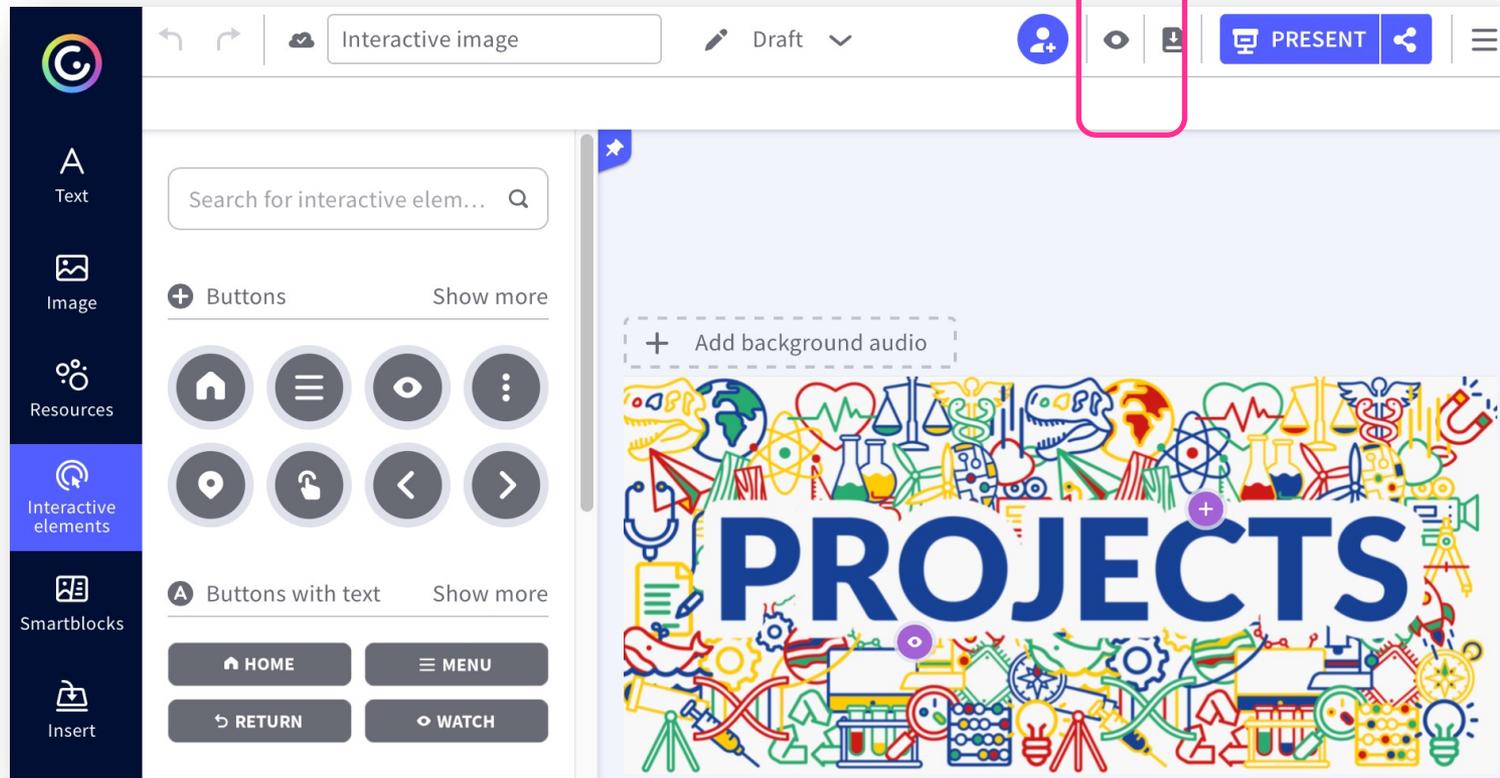

To share

There is also the possibility to share your creation, to make it collaborative. To do this, the person with whom you share must have a Genial.ly account.
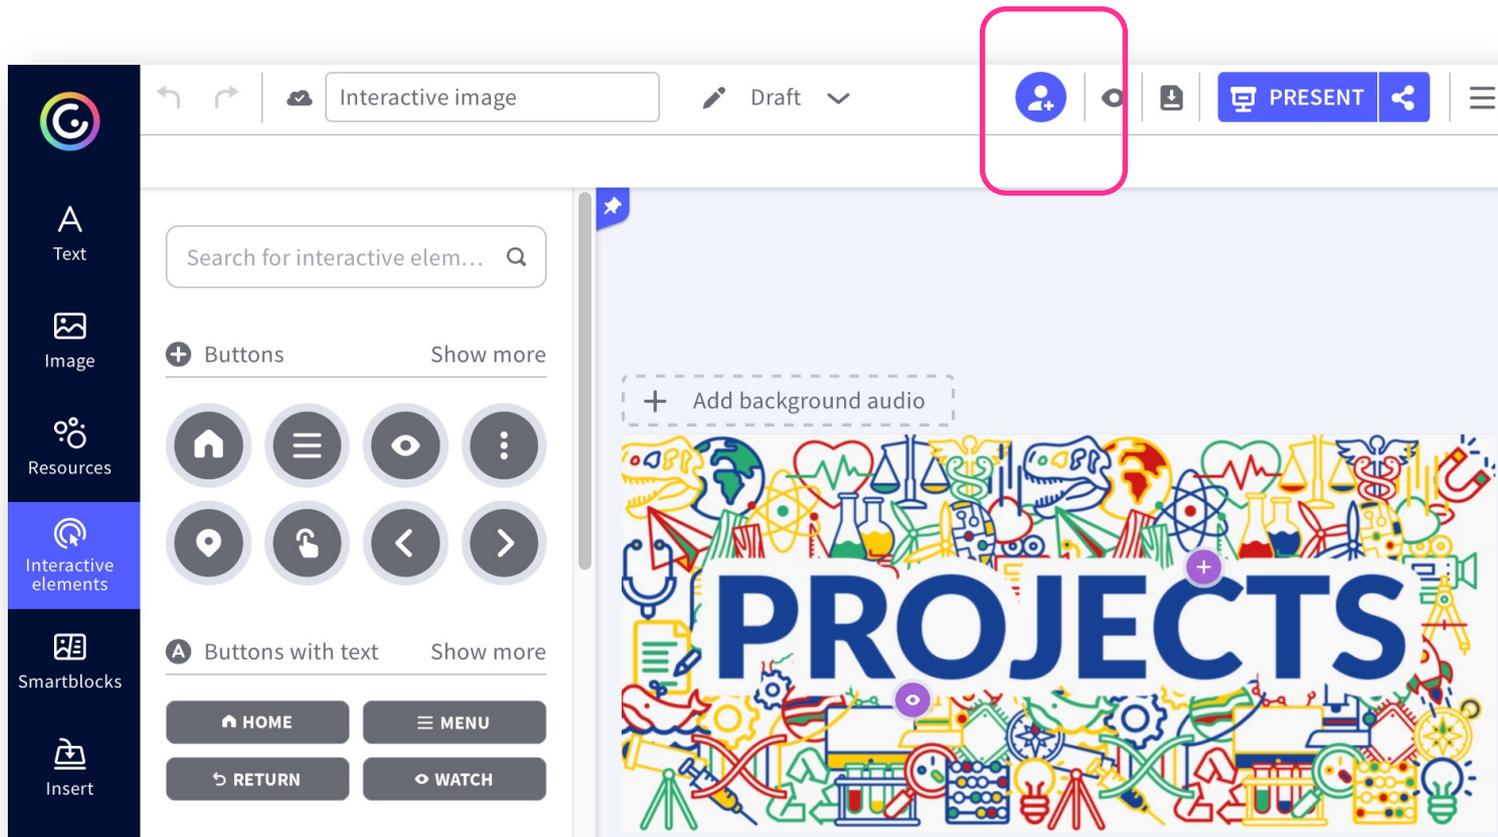

Present

Once you have finished click **Present**.

You can always go back to edit your work again.

@girlseuproject
https://girlsproject.eu/

GIRLS

VNiVERSiDAD Ð SALAMANCA
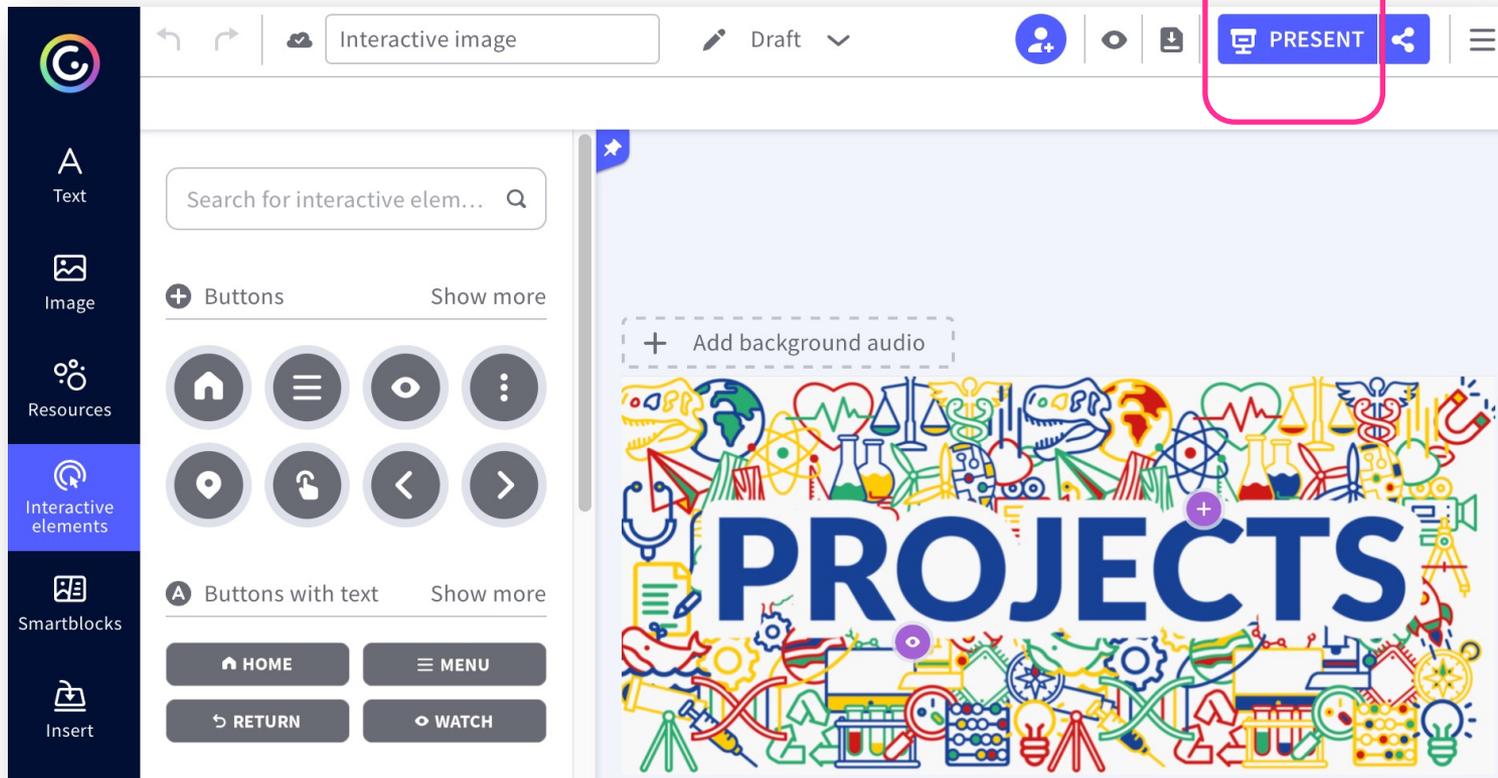

To insert a text you use the menu on the left, symbol "**Text**".

The program offers several templates that can be used.

Subsequently, the colour of the text can be changed.

@girlseuproject
https://girlsproject.eu/

Create an interactive image
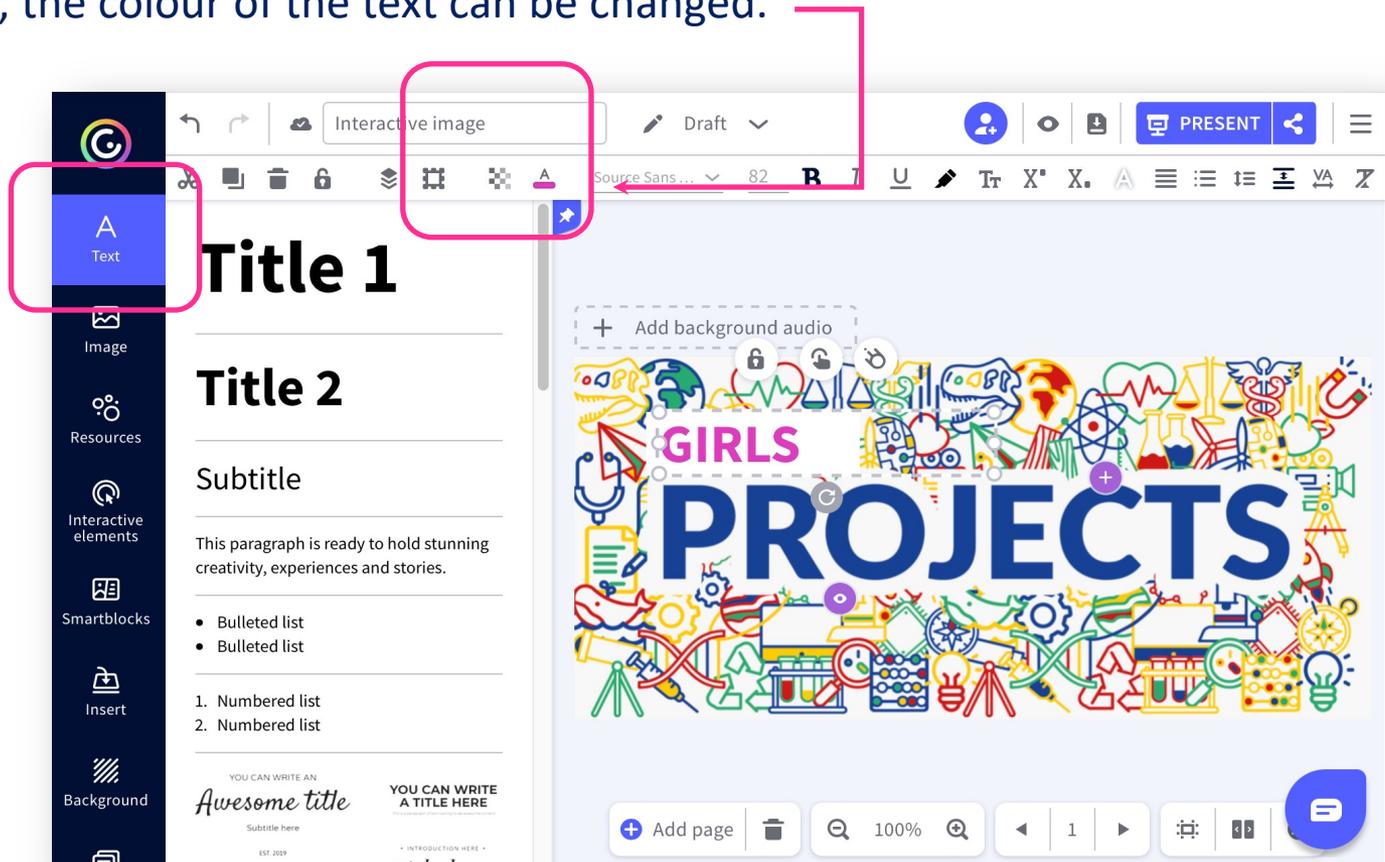

We are going to introduce **interactive elements**, clicking on the corresponding button.

First of all we enrich the default ones (purple colour).

@girlseuproject
https://girlsproject.eu/

Create an interactive image
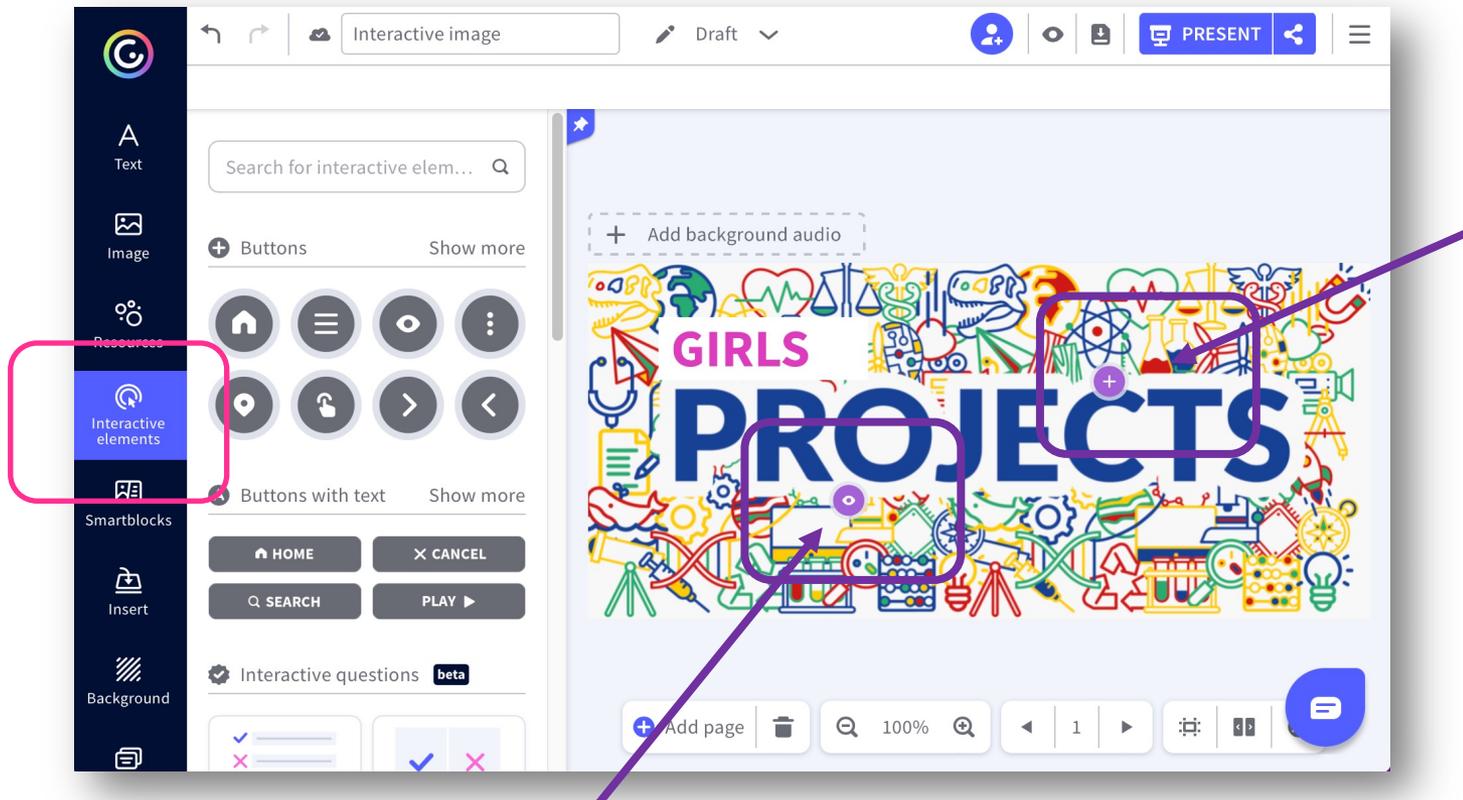

When clicking on an interactive element, several symbols linked to actions appear: lock, add interactivity, add animation and replace.

Select **interactivity** and several options will appear, among others: label, window, go to page, link, full screen, audio and reveal.

Link allows you to link to other content, for example a YouTube video.
Simply insert its URL.

Add an interaction

TOOLTIP
A short label or description appears when you hover the mouse.

WINDOW
A box with text, images, video, or other content opens.

GO TO PAGE
Jumps to another page of the genially.

LINK
A web page opens.

FULL SCREEN
The content expands to fit the screen.

AUDIO
Plays music, a voice recording, or a sound.

REVEAL
Makes other content appear on the screen.

LINK ADDRESS

https://www.youtube.com/live/JxeJow3ujag?feature=share

*The link must contain "https://" to work correctly.

DISPLAY OPTIONS

◉ Open in a new tab   ○ Open replacing genially (same tab)

ENABLE ACCESSIBILITY ⓘ

GIRLS

VNIVERSIDAD Đ SALAMANCA

Add an interaction

TOOLTIP	WINDOW	GO TO PAGE	LINK
A short label or description appears when you hover the mouse	A box with text, images, video, or other content opens.	Jumps to another page of the genially.	A web page opens.

FULL SCREEN	AUDIO	REVEAL
The content expands to fit the screen.	Plays music, a voice recording, or a sound.	Makes other content appear on the screen.

Tooltip allows you to enter a short text. An editor will appear, with many possibilities besides writing and formatting, inserting emoticons, links, images, videos, tables, etc.

Once saved, when viewing the result, the text is displayed when hovering over the interaction icon from which we have created it (it is not necessary to click on it), on the same slide.

This GIRLS project is presented as a partners' proposal to promote several important aspects in Europe such as inclusion and diversity, equality, digital transformation and the sustainable development goals (SDG).

REVEAL
Makes other content appear on the screen.

**Window**, allows you to enter a long text. An editor will appear, with many possibilities besides writing and formatting, inserting emoticons, links, images, videos, tables, etc.

Once saved, when viewing the result, a new window will open when clicking on the interaction icon from which it was created.

GIRLS
Generation for INNOVATION, RESILIENCE, LEADERSHIP and SUSTAINABILITY

THE GAME IS ON!

We propose to teach how to play by playing; that is, we are focused on 4 methodologies: research-based learning, game-based learning, competency-based learning, and service-learning. The entire project is organized like a game with work packages ranging from «The Board» to «Game over!» going through «The rules of the game» and «The game».

@girlseuproject
https://girlsproject.eu/

Create an interactive image

You can also add various "**Resources**": icons, shapes, graphs, lines and arrows, illustrations, scenarios, maps and silhouettes.

Simply clicking on the resource and it appears on your slide. You can edit it later, either with the menu at the top left or by double clicking with the right mouse button.
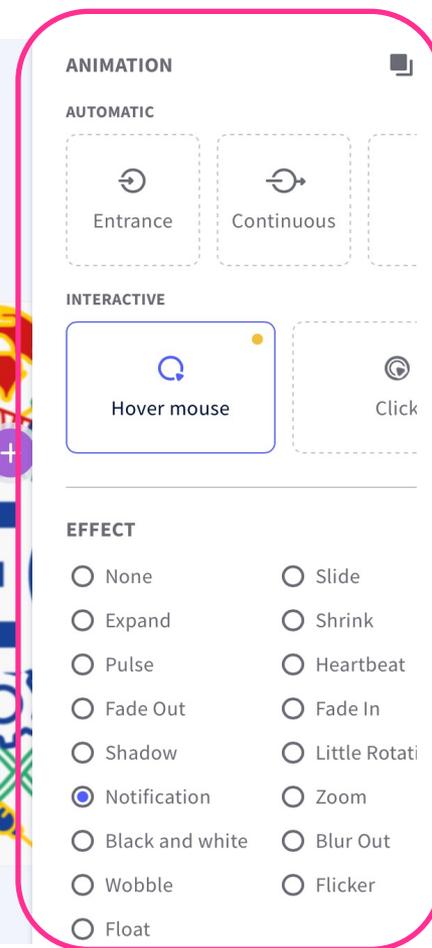

@girlseuproject
https://girlsproject.eu/

🔒 👆 👁 🔄 Replace

We are now going to "**add animation**" to a resource.

By clicking on the element, select the 3th button, and choose the type of animation.
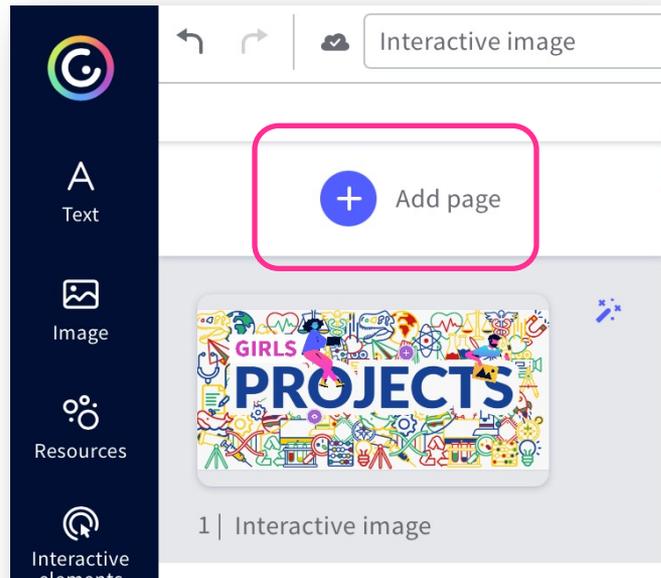

For example:

🎲 Hover Mouse

🎲 Notification

ANIMATION

AUTOMATIC

Entrance | Continuous

INTERACTIVE

Hover mouse | Click

EFFECT

- ○ None
- ○ Expand
- ○ Pulse
- ○ Fade Out
- ○ Shadow
- ● Notification
- ○ Black and white
- ○ Wobble
- ○ Float
- ○ Slide
- ○ Shrink
- ○ Heartbeat
- ○ Fade In
- ○ Little Rotati
- ○ Zoom
- ○ Blur Out
- ○ Flicker

+ Add background audio

GIRLS PROJE

CREATE A NEW SLIDE

@girlseuproject
https://girlsproject.eu/

Create a new slide

Actually what you have done so far is one slide or page.

Let's add another slide. To do this from the side menu

on the left select "**Pages**".

You can also do it from the + icon at the bottom of the

workspace.

A window with a number

of templates that may be

useful to you is displayed.

Add one of them ("Add").

@girlseuproject
https://girlsproject.eu/

IMAGE

Images

Genial.ly has images of various types available, as well as animated gifs.

Simply select "**Image**" and click on the desired element to add it to the slide.

In addition, images can be easily added by dragging them onto the blue shaded area.

Any image can be interactive or animated, with the procedures explained above.
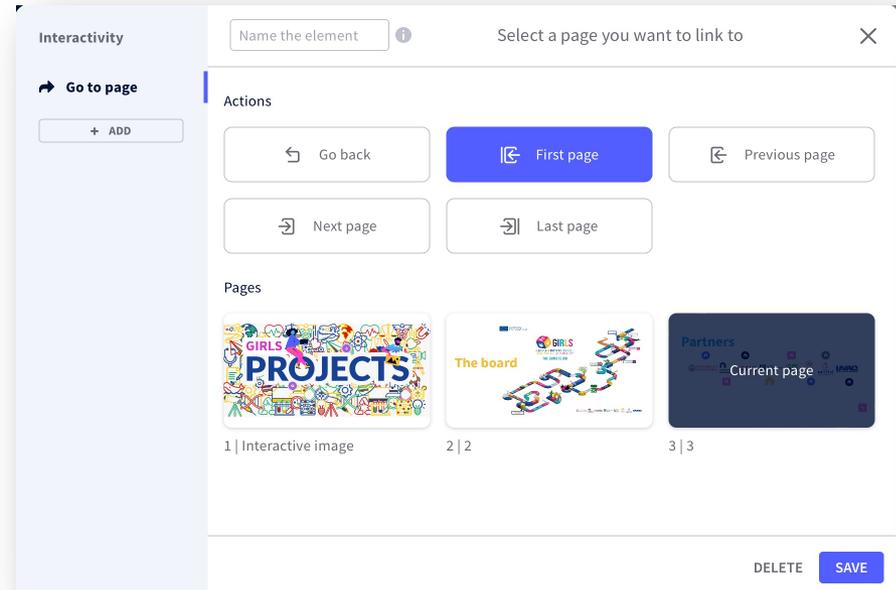

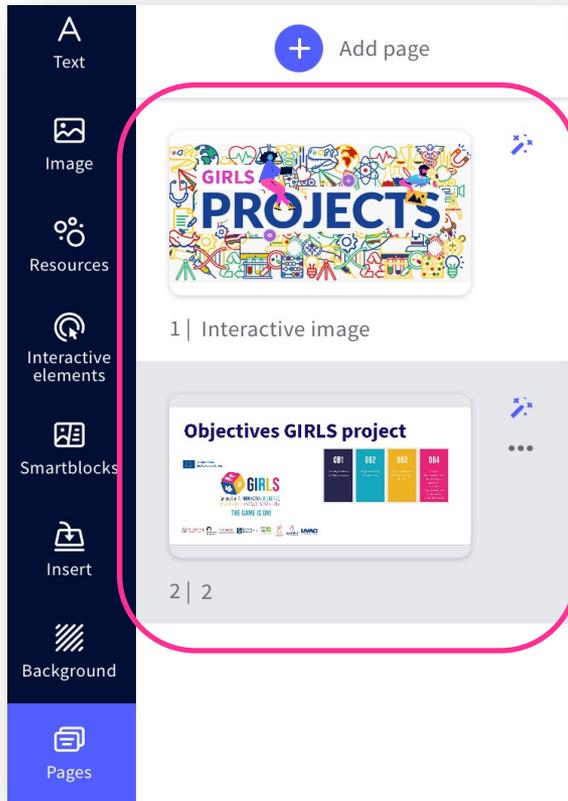

Once selected, the familiar menu appears.

https://girlsproject.edu/

LINKING SLIDES

Co-funded by
the European Union

@girlseuproject
https://girlsproject.eu/

Linking pages

Once two pages (or slides) have been created, they can be displayed under "**Pages**".

If we go to the result (eye-shaped icon at the top right) we can see the "**>**" symbol in the centre, on the right, which allows us to advance between the slides of the presentation.

It is also possible to link pages by selecting an element, and in the "interactivity" icon, choose "**Go to page**".
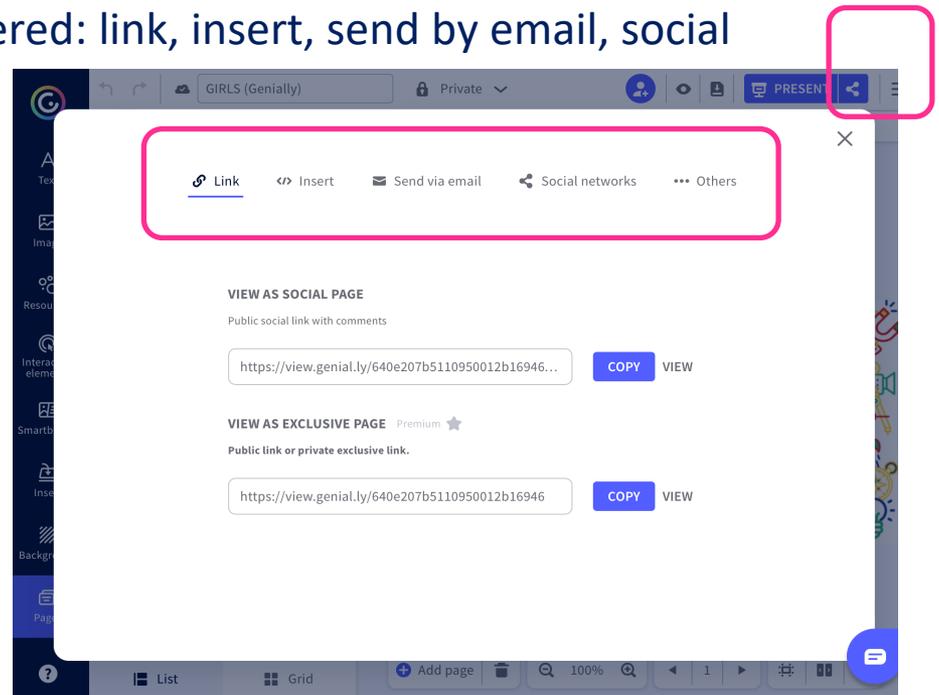

SHARE YOUR PRESENTATION

@girlseuproject
https://girlsproject.eu/

GIRLS

VNiVERSiDAD Ð SALAMANCA

Share your presentation

When clicking on several symbols linked to actions appear: a window opens, in which several modes are offered: link, insert, send by email, social networks and others.

In each case a menu is displayed with instructions for sharing.

In this way you can also generate collaborative work.

@girlseuproject
